Dear Mr. Cochran and Dr. Barone:

At its meeting on July 18, 2018, the Membership and Professional Standards Committee (MPSC) reviewed the results of a routine on-site survey of Arkansas Regional Organ Recovery Agency (AROR) conducted on January 18, 2018.

AROR had a clinical compliance score of 100 percent and some administrative errors. Violations identified in the on-site survey included OPTN Policies 2.2 (OPO Responsibilities) and 18.1 (Data Submission Requirements). In response, the OPO submitted a corrective action plan (CAP) following the on-site survey. The MPSC recommends that the program continue to follow the CAP in order to avoid similar occurrences of non-compliance.

Based on its review, the MPSC approved the following recommendation:

**RESOLVED**, that the Membership and Professional Standards Committee closes the review of Arkansas Regional Organ Recovery Agency with no action.

The Committee voted 34 For; 0 Against; and 0 Abstentions.

Please be aware that this correspondence and all related documents and information are protected by applicable peer review statutes. Members must keep all information provided in the medical peer review processes and settings confidential. Therefore, all inquiries, deliberations, recommendations, and actions of the MPSC, Board of Directors, other committees, and Organ
